PROFILE

I am a passionate and detail-oriented web developer with experience in designing and developing user-centric websites and applications. My background includes a Bachelor's degree in Computer Engineer from AL-Balqa applied university quality of engineering and proficiency in a range of programming languages and tools

TECHNICAL SKILLS

Front-End: HTML5 │ CSS3 │ Bootstrap │ Javascript │ React JS │ Next js │ Typescript

Back-End: PHP, Laravel

Database: MySQL

Operating Systems: Windows

Software Development Practices (SDLC): Agile │ Scrum

Tools: Visual Studio Code │ Figma │ Trello │ GitHub

SOFT SKILLS

Soft Skills (Problem-Solving │ Communication │ Critical Thinking │ Adaptability │ Teamwork │ Creativity │ Attention to Details)

PROFESSIONAL EXPERIENCE

EqraTech, *March 2025-present*
As a Full-Stack Laravel Developer, I contributed to an advanced Arabic linguistic platform focused on Quranic text analysis, including in-depth processing of words, letters, and harakat. I designed and implemented logic for semantic and grammatical features as part of a broader initiative toward AI-powered speech recognition and voice analysis in Quranic studies.

Tourstify, *Jan 2025 -March 2025*
At Tourstify, I played a key role in developing and maintaining both the frontend and backend of the admin portal for travel agencies and the ambassador dashboard. I utilized PHP (pure) and JavaScript to build seamless features, integrated APIs, and employed Postman for thorough testing. My contributions enhanced platform performance, scalability, and security while collaborating closely with cross-functional teams to deliver high-quality solutions.

Orange Coding Academy Intern, *Aug 2024 - Dec 2024*
Completed a full-stack developer internship at Orange Coding Academy, mastering HTML, CSS, and JavaScript for front-end development. Advanced to back-end skills with PHP, Laravel, and SQL for effective data management. Gained experience in React for building dynamic UIs and used GitHub for version control. Additionally, developed skills in Linux for efficient system operations.

Orange Core Network Intern, *Oct 2023-Feb 2024*
Led management of GPRS traffic and air interface operations, optimizing data transmission efficiency. Orchestrated seamless connectivity via SGSN for mobility and session management. Spearheaded data routing and integration with external networks through GGSN, enhancing internet service accessibility for mobile users
PROJECTS

Golden Fitness ⧉
Developed a comprehensive fitness platform with features like gym memberships, premium workout videos, a shop for gym essentials, a fitness blog, and personalized user profiles. Built using **Laravel**, with an admin dashboard for managing products, subscriptions, orders, and user engagement. Integrated **Mailtrap** for communication handling.

Comfy Store ⧉
Modern E-commerce React Application, Built a full-featured e-commerce platform using React 18 with hooks (useState, useEffect, useSelector, useDispatch), Redux Toolkit for state management, React Router 6 with data loaders, and TanStack React Query for server state caching. Implemented JWT authentication, protected routes, shopping cart persistence with localStorage, and responsive UI using Tailwind CSS + DaisyUI with dark/light theme switching.

EDUCATION

Full-Stack Development Bootcamp | Orange Coding Academy, *Aug 2024 - Dec 2024*
Intensive course in Full Stack Web Development by Orange Coding Academy in collaboration with Simplon.co ⧉ and Princess Sumaya University for Technology (PSUT).

Bachelor of Computer Engineering | Balqa Applied University (BAU), *2019-2024*

COURSES

React-NextJS
100 Hours With Udemy

Frontend-ReactJS
100 hours with Knowledge Academy

English Certificate
48 Hours with Amideast
